## Welcome to create mag

**Create Mag** is a new monthly online magazine aimed at students who want a career in the creative industries.

The aim of the magazine is to support young people who are studying subjects that are focused on creative computing by:

- sharing practical techniques
- showcasing students' practical work
- writing about developments in the creative industries
- allowing students to share their views and opinions on aspects of the creative process

Beautifully designed and packed full of tip-top features and techniques, **Create Mag** will soon be a firm favourite among students of creative computing

**Your ideas:**  
We want students to play an active role in the development of Create Mag. We want to hear from you if you have got an idea for a feature, a skill or practical technique to share or you want to showcase some of your own work.

Please email us with your ideas at [info@createmag.org.uk](mailto:info@createmag.org.uk)

**The Mag:**  
The first edition of Create Mag is available for download **free of charge** from February 1st 2018.

It features articles on the future of web apps, how to create SVGs, the role of a games tester, and a rundown of the best wireframing tools.

Take a look at some sample pages from the first edition

- colour scheme used
- navigation buttons – just the three required
- clear title
- text on left, images on right
- textbox used with rollover
- suitable images added – balance between text and images
- e-mail link added

## Features Page

This has very specific requirements.

The screenshot shows a website layout for 'create mag'. At the top left is a collage image with 'WEB DESIGN' text. The main header area is dark grey with the text 'create mag' in a large, bold, yellow font, and 'careers in the creative industries' in a smaller, white font below it. A navigation menu consists of three dark grey buttons with white text: 'Home', 'Features', and 'About'. Below the navigation are two thumbnails. The left thumbnail shows a woman at a desk with the text 'Design Trends' overlaid. The right thumbnail shows a woman with glasses looking at a laptop with the text 'Web Design' overlaid. In the center, there is a dark grey rectangular box with the word 'Features' in yellow. Below this box is a white text box containing the following text: 'We will be covering a host of topics covering practical skills and techniques in website development, digital imaging, creative media and computer game production. We will provide you with practical guides and career tips.' Below this text is the heading 'Upcoming features include:' followed by a bulleted list: '• shooting a single camera drama', '• lighting for game design', '• responsive design techniques', and '• guide to jobs in graphic design'.

- colour scheme used
- 2 thumbnails and 1 coloured text box added as required
- sizes are correct
- text added to thumbnails to make them clear
- text added at bottom of page to add to content – otherwise this page is very empty
