

Creating the land

Step 1:

Create a New Illustrator document - 200 mm by 200mm

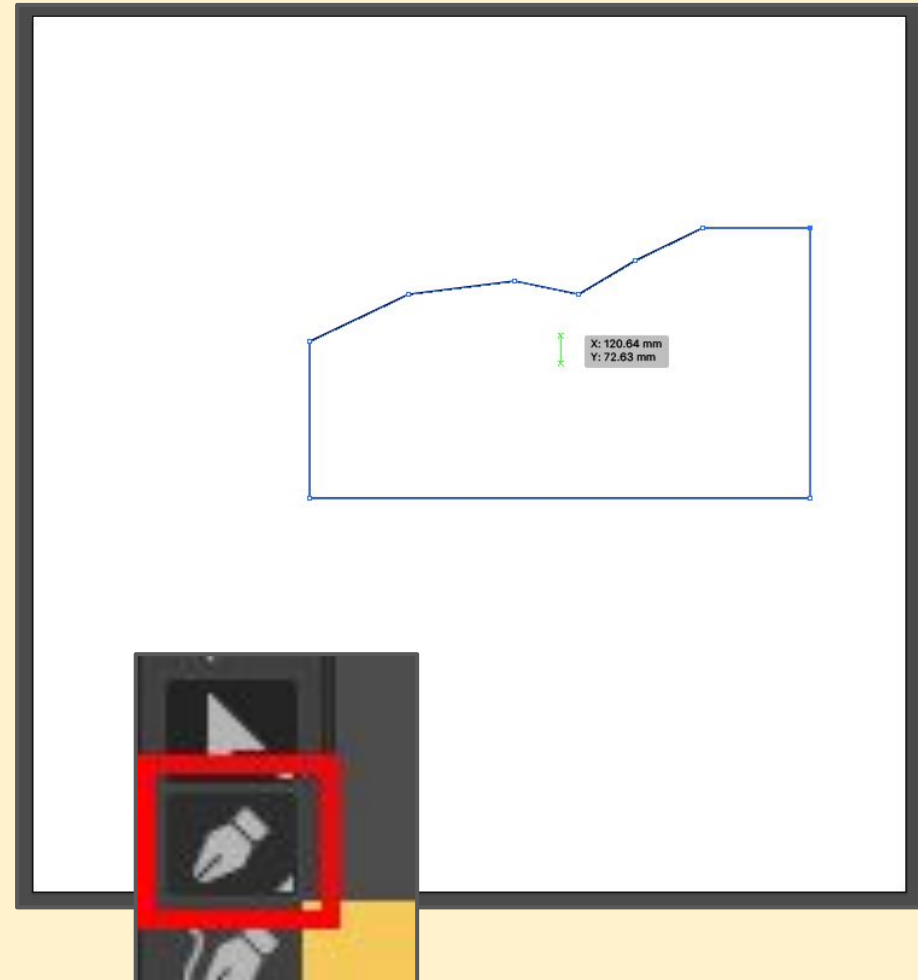

Creating the land

Step 2:

Use the **Pen Tool** to create a land sort of shape for your lighthouse to sit on - like you did for the waves

Make sure you **join the shape up** to form a solid

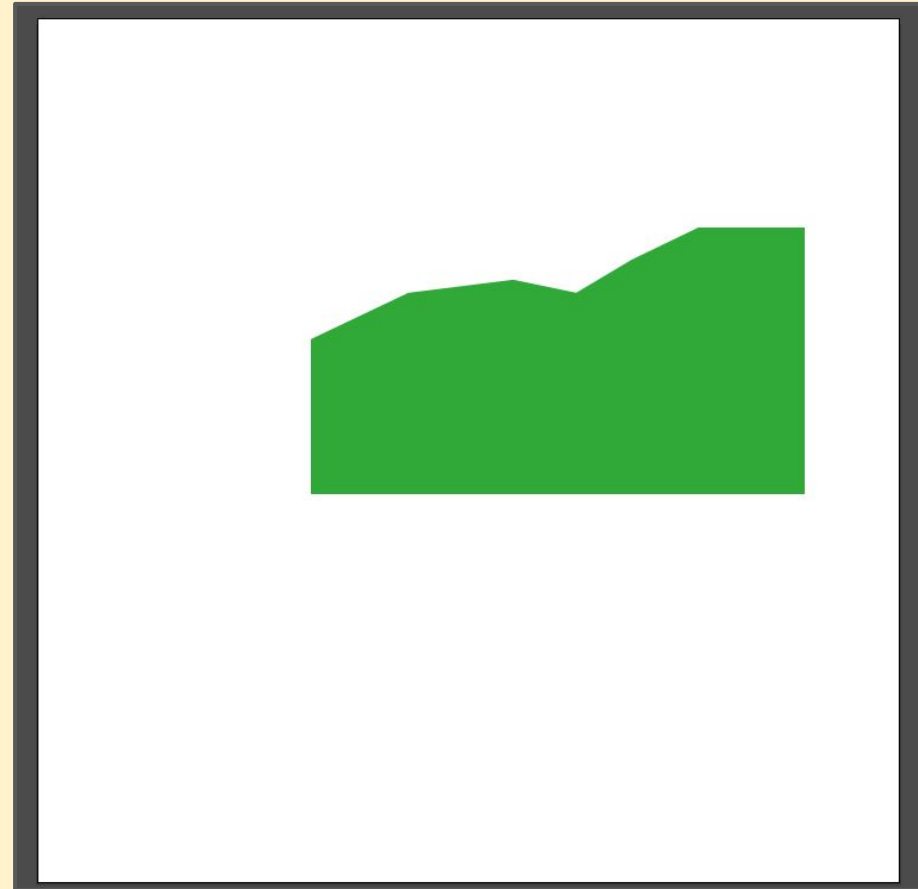

Creating the land

Step 3:

Fill the shape a suitable colour

Set the **stroke** to transparent

Creating the land

Step 4:

Use the **Direct Selection Tool** (White arrow) to select a point on the top of the land

Use the **Convert Curve option** on the right panel to smooth the shape out

Repeat

Save and export
