

Programming a Quiz

To add a score to a quiz we need to use **macros**

Macros are small computer programs

Macros have to be written in **Visual Basic** and then assigned to be run when a button is pressed

We use a **variable** to keep track of the score

Programming a Quiz

Add to score macro:

```
Sub plus_one()  
score = score + 1  
End Sub
```

Programming a Quiz

Move to slide 6 macro:

```
Sub goto_6()  
Application.SlideShowWindows(1).View.GotoSlide Index:=6  
End Sub
```

Programming a Quiz

Task:

1. Download the **bigquiz** PowerPoint
2. Save it as a Macro Enabled PowerPoint
3. Lock it down (browsed at a kiosk)
4. Add macros...
5. Add screenshots and text to your report

Programming a Quiz

You get into the macros area of PowerPoint by:

1. Click **View** at the top
2. Click the **Macros** button on the right
3. Click on one of the macros > **Edit**
