## Scratch E-Safety Quiz

- 1. Go to the Scratch website
- 2. Press Create at the top
- To open a project you have saved in your user area: File > Upload from your computer

## To code the quiz:

- 4. Start with a When GREEN FLAG block
- Add some purple Say
  for 2 secs blocks to give a message
- Use a blue Ask block to ask the question
- 7. Use a light orange IF ... THEN ... ELSE block to tell them if the answer is right

													у:
when 🖊 clicked													
say Welcome to the e-safety quiz	for (2	56	:C5										
say Answer A, B or C to all question	ns for	2	sec										
ask Which is the best password: A	= dog;	В =	span	ner	2004	4; C	= p	ass	word	d a	ind	wait	Ľ
if answer = B then				-		•					÷		
say Correct for 2 secs													
else													
say Bad luck. The answer was B	for	2	secs										
a a a a a a a	4	-+	4	+-		÷	+	-			4	4	4

- 8. Build up a green **EQUALS** block using a blue **answer block** to check the answer. Add this to the hexagon shape in the IF
- 9. Ask the next question

## Save your work:

10. To save your work to your user area: File > Download to your computer

## To add scoring

- 11. Go to the Dark Orange Data section
- 12. Make a variable. Call it score
- If they get the answer right, use a Change score by 1 block
- To show the score, use a green Join block to add words together and then a Say block
- 15. You will need to work out a way to set the score to 0 at the start of the quiz each time
